

Fibrocem Colour Selector

For: anti-graffiti/fire protection coating
(New Bare Surfaces & Previously Painted Surfaces)

Part of the
Anti-Graffiti System

Fibrocem AG/FP Coatings are the most advanced anti-graffiti/fire protection coating system ever developed. They can deliver anti graffiti protection and a class 0 fire rating in only 2 coats.

Within this colour selector you will find 30 of the most attractive and practical colours, carefully selected for their ability to enhance and improve the internal areas of many building types.

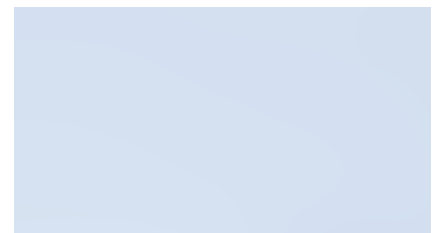

DISCLAIMER:
For technical reasons connected with colour reproduction, colours shown may not exactly match actual paint colours.
